

Cello Performer Notice (Updated)

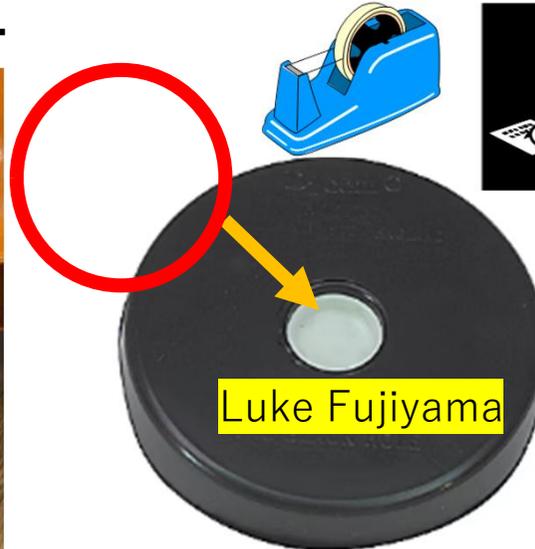

Use of the cello endpin during rehearsals and the concert performance is strictly regulated.

The following rule must be observed:

You are not allowed to place the tip of your cello endpin directly on the stage floor, nor to perform using only the rubber cap attached to the endpin.

Doing so may damage the floor or leave marks that are difficult to remove, and you may be charged for any necessary repairs. Please always use an appropriate endpin stopper or floor protection device—such as an endpin mat—.

In addition, **please write your name on these floor-protection devices, or attach your name using tape, to avoid mix-ups or loss.**
